China West Normal University – China
2021 - 2024

LANGUAGES

- **Persian**- Native
- **English**- C1, Fluent
- **French & German**- A1, Basic

HOBBIES

- Playing Piano
- Watching movies
- Football

PROFILE

Experienced Software Engineer from Afghanistan with 6+ years of experience in PHP. Proven expertise in database design, collaborative teamwork, and NLP using TensorFlow and PyTorch. I have excellent communication skills and a strong passion for continuous learning. In 2021, I received a scholarship from the China West Normal University in Sichuan to pursue a master's degree in Software Engineering. My goal is to relocate to Europe and continue my career as a Software Engineer, leveraging my skills in both traditional software development and modern AI/ML techniques.

WORK EXPERIENCE

Full Stack Engineer | Part-time, Remote

Education Bridge for Afghanistan - Non-Profit

Nov 2021-July 2023

- Collaborating with a team of **9** web developers and designers to **design and develop** a **management information system** for student and teacher registration, enrolment, and record-tracking.
- Played a key role from **prototyping to the final release** of the system in all development stages which is currently being used by **1,400 students** and **65 teachers**.
- Stack: PHP, Laravel, JavaScript, MySQL and third-party JS libraries.

Web Developer | Full-time, Onsite

Raybold Software & Graphic Design Company - Startup

Sep 2020 - Dec 2021

- Developed software for hospital management of all administrative parts, including finance and pharmacy management, in collaboration with a team of **6** developers.
- **Led** the development of the software, from initial planning to final implementation, resulting in its successful application and currently being used by **14 hospitals**.
- The software contributed to the **business success** of the company and increased its popularity **about 50%** among hospitals, ultimately solidifying its reputation as a provider of high-quality, innovative solutions.
- Stack: PHP, Laravel, MySQL, JavaScript, React.js, jQuery and third-party JS libraries.

Web Developer | Full-time, Onsite

ADRAS LLC

May 2017 - Aug 2020

- Contributed to the development of a large software system that centralizes administrative operations of governmental civil ORGs across **34 provinces**. The system focused on employee records and letter management in ministries and their departments.
- Independently **created 3 modules** from **scratch** and participated as a team member on 5 additional projects.
- played an essential role as part of a team of **189** IT and web developers in the successful deployment of the **software** to over **3,000 active users**.
- Stack: PHP, MySQL, JavaScript and it's third-party libraries.

Recommending Ebrahim Sharifi

Dear colleague -

I hope this finds you well.

I'm writing to you to **strongly endorse Ebrahim Sharifi** for a role as a Backend Engineer.

We know Ebrahim as a **smart, open-minded, curious and committed** young professional who brings passion and grit to his work as a Backend Engineer. Our team of Tech & HR professionals has pressure-tested his skills and character over the last months in a series of 1:1 mentoring chats. Here are the results.

Ebrahim is an outstanding Senior Backend Engineer who ranks in the top 3% of our peer group.

English skills	Very good – validated in multiple rounds of 1:1 interviews
Engineering skills	Exceptionally strong – on par with our very best Fellows
Intercultural skills	Clear orientation towards Europe - Has worked with EU/US-based clients
Blue Card readiness	Check Anabin Database – will be guided by us in the visa process

Our team describes Ebrahim as "**smart, a team-player and reliable**". I very much encourage you to invite him for an interview. He will make a great addition to your team. Reach out at johann@joinimagine.org in case of any questions.

Warm regards & herzliche Grüße -

Dr. Johann Daniel Harnoss
Founder & CEO

Imagine Foundation e.V. | Talent is universal, opportunity is not.

We are a community of Tech & HR professionals who believe in the power of diversity. We coach hundreds of engineers each year and connect our most promising Fellows with leading firms in Europe.

Want to learn more? We've placed 50+ Fellows in the last 12 months. [Meet them here](#)
